SUMMARY

Mission driven and safety-oriented pilot who focuses on safe and efficient operation of aircraft in furtherance of business.

Former member of The Academy, a World-Class competitive Drum and Bugle Corps and member of Drum Corps International.

EXPERIENCE

Survey Pilot – Kucera International Inc

2025-Present

Operate Piper Navajo Chieftain PA-31-350 and Cessna 206 Stationair aircraft nationwide in support of aerial survey operations, including single-pilot multi-engine VFR and IFR operations. Responsible for flight planning, weather evaluation, aeronautical decision-making, risk management, and coordination with ATC in complex airspace. Developed and built a web-based SMS application to unify safety records, flight dispatch, and aircraft maintenance records.

Pilot – RAM Companies LLC

2023-2025

Responsible for the safe and efficient operation of aerial survey and aerial photography missions across the Eastern United States. Communicated and coordinated with ATC to ensure cohesive operations in and around busy airspace.

Help Desk Engineer – LTech Solutions

2020-Present

Responsible for implementing and maintaining complex technical systems across a wide set of business needs. Worked directly with clients and end-users to ensure solutions were adequate for their environment. Customer service focused as well as high-level technical operations.

EasyTech Associate – Staples

2015-2020

Assisted customers with purchasing appropriate electronics for their needs. Customer focused technical troubleshooting, ensuring a high level of customer satisfaction.
